Assessing Level 3 Awards and Certificate

These qualifications are all at Level 3 and are appropriate for individuals who are interested in taking on the role of an assessor as well as for staff already in this role.

COURSE OVERVIEW

There are three qualifications within the suite. There is a knowledge based award on the principles and practices of assessment, suitable for those who may not be directly involved in assessing or those new to assessment. Of the two other awards one focuses on the assessment of competence whilst the other focuses on the assessment of vocationally related achievement. The Certificate combines both these aspects of assessment.

The aims of the qualification are to enable learners:

- To develop knowledge and understanding of the principles and practice that underpin assessment
- To develop skills in assessing occupational competence in an individual's work environment
- To develop skills in assessing vocational knowledge, understanding and skills in environments other than the work environment
- To award the candidate a professional qualification for the knowledge, understanding and skills developed
